ANY FORM OF CHEATING OR AN ATTEMPT TO CHEAT IN THE EXAMINATION WILL RESULT IN AN AUTOMATIC DISMISSAL FROM THE EXAMINATION HALL AND CANCELLATION OF YOUR SCORE(S).

DO NOT TURN THIS PAGE UNTIL YOU ARE TOLD TO DO SO.

I. Reading Comprehension

Directions: Items 1-9 are based on the passage below. Read it and choose the correct answer from the alternatives given **A-D**.

Bees are insects. Bees are special insects because they can fly. They can move through air like an airplane. Bees can fly because they have wings. They can fly up and down. They need to fly to get to the flowers.

Bees can have three colors. They can be yellow, red and orange. All bees are black in some places. Bees have three main parts. They have a head. They have a body, and they have stinger. The stinger is used to defend against enemies. They also have six legs. They use their legs to stand and climb. They also use their legs to eat and collect pollens.

Bees live in many places. They live in Africa, Asia, Europe, North America and South America. The only continent that bees do not live in is Antarctica. I understand why they do not live in Antarctica. It is too cold. Most of the time, bees are nice to humans. If you do not bother **them**, they will not bother you. Have fun watching the bees the next coming summer.

1. Which one could be the best title for the passage?

A. Flowers B. Insects C. Stinger D. Bees

2. What are bees? A. mammals B. birds C. reptiles D. insects

3. The word '**them**' in paragraph 3 line 3 refers to _____.
